Awarded for designing and developing the academy's official responsive website

PROJECTS

UniHope Foundation – NGO Donation & Fundraising Platform
Full-Stack Web Application | Next.js, React.js, TypeScript, Tailwind CSS, Convex, Razorpay, Resend
- Developed a responsive, SEO-friendly NGO platform using Next.js, React.js, and TypeScript, featuring donation management, volunteer engagement, and impact pages.
- Integrated **3 donation methods** (Razorpay, UPI, and Bank Transfer) with secure payment verification and HMAC-SHA256 webhook handling.
- Implemented Convex database management and Resend email integration for automated donor receipts with duplicate prevention.

Visa Services Platform
Full-Stack Web Application | Next.js, React.js,TypeScript Tailwind CSS
- Developed a reusable dynamic template serving 25 country-specific visa pages through dynamic routing.
- Built responsive visa-service sections, customer testimonials, and interactive destination carousels.

Astromila - Advanced Vedic Astrology Platform
- Developed responsive frontend interfaces for **3 core modules**: Horoscope Matching, Jathagam Comparison, and Marriage Biodata Generation.
- Built reusable UI components and interactive forms for birth detail input, horoscope compatibility comparison, and personalized biodata creation.

Pump Management & AI-Based Recommendation Dashboard
- Developed a responsive dashboard interface supporting create, read, update, and delete operations for pump data and technical specifications.
- Integrated REST API-powered interfaces with a WhatsApp-enabled AI chat feature for automated customer support.

Additional Web Development Projects
Client & Personal Projects | Frontend Development
- Developed and contributed to multiple client and personal projects, including Genzuv Digital Marketing Solutions, AI Amanath English Academy, Ladder Academy, Personal Portfolio, and Interactive Web Games.
